

# Check Reboot

Newer Gnome distros (Ubuntu 11.10+, Linux Mint 12+) do not provide any indication when a reboot is needed after you run Synaptic (or apt-get from a command line). These simple apps provide this indicator as a tray icon.

Name	Description	Platform	Requirements	Link
Check Reboot	System reboot indicator. This is the <a href="#">Mono</a> version.	Linux, relevant only in the Gnome environment.	Mono runtime	<a href="#">download</a>
Check Reboot	System reboot indicator. This is the statically-linked <a href="#">Lazarus</a> version.	Linux, relevant only in the Gnome environment.	None	<a href="#">download</a>
