

React Cheat Sheet

Create

```
npx create-react-app my-app
```

Run (development environment)

```
cd my-app  
npm start
```

Default development server will run at <http://localhost:3000>

Build / Publish

After you design and test the application, build with this:

```
npm run build
```

To deploy, upload the contents of the build directory to your web server.
